PRIMIR UV/EB CURING TECHNOLOGIES IN PRINTING

TABLE OF CONTENTS

I. EXECUTIVE SUMMARY	1
A. Introduction.....	1
B. Definitions and Segmentation of UV and EB Curing Technologies	3
C. Energy Curing Applications.....	4
D. Equipment and Supplies Manufacturer Revenue.....	5
E. Stakeholder Perspectives on Energy Curing Ink Technology	7
Commercial Printer and Packaging Converter Perspectives	8
The Brand Owner Perspective	10
Energy Curing Printing Equipment and Supplies Manufacturer Perspectives	12
F. North American Printing Equipment and Supplies Manufacturer Forecast.....	16
G. Conclusions and Implications for NPES/PRIMIR Members.....	18
H. Recommendations.....	20
II. INTRODUCTION AND METHODOLOGY	22
A. Study Methodology and Scope	24
B. Finding Highlights.....	26
C. Report Structure	29
III. DEFINITIONS AND SEGMENTATION OF UV AND EB CURING TECHNOLOGIES AND APPLICATIONS	31
A. Introduction.....	31
B. UV Ink Technology.....	32
Printing Press Technologies.....	32
UV Ink Chemistry.....	33
UV Curing Technology.....	35
C. EB Ink Technology	36
EB Printing Press Technologies.....	36
EB Ink Chemistry	37
EB Curing Technology	37
IV. APPLICATIONS.....	39
A. Introduction.....	39
B. Energy Curing Applications.....	40
C. Commercial Print	41
Offset Applications	41
Inkjet Applications.....	42
D. Packaging.....	43
Flexographic and Offset Applications	43
Corrugated.....	44
Inkjet Applications.....	44
EB Applications.....	45
E. Coatings.....	46

F. The Bottom Line.....	47
V. ENERGY CURING EQUIPMENT AND SUPPLIES MANUFACTURER	
REVENUES.....	49
A. Introduction.....	49
B. Sizing Methodology.....	50
C. UV and EB Analog Press Manufacturer Revenue.....	51
D. UV and EB Ink Manufacturer Revenue.....	54
E. UV and EB Coating Manufacturer Revenue.....	58
F. UV and EB Curing Systems Manufacturer Revenue.....	61
G. UV and EB Curing Plate Manufacturer Revenue.....	65
H. UV and EB Blanket, Roller, Coater, and Other Manufacturer Revenue.....	66
I. UV Inkjet manufacturer revenue.....	68
VI. COMMERCIAL PRINTER AND PACKAGING CONVERTER PERSPECTIVES	71
A. Introduction.....	71
B. The Application Fit of Energy curing Inks.....	73
C. Application Perspective.....	76
D. The Curing-System Perspective.....	77
E. Commercial Printers UV Curable Ink and Coating Consideration Process.....	79
Cost Savings vs. Value-Add.....	80
F. Energy Curable Ink Consideration Process at Packaging Converters.....	83
UV Inks.....	83
EB Inks.....	85
G. UV Curable Ink Consideration Process at Screen Printers.....	85
H. UV Curable Coating Consideration Process.....	86
I. The Challenges with UV Curing Ink Technology.....	87
J. Benefits of UV Curing Inks and Coatings.....	90
K. The UV Curable Dividends.....	92
VII. BRAND OWNER PERSPECTIVES.....	94
A. Introduction.....	94
B. Brand Owners and Their Perspectives of Energy Curing inks.....	95
C. UV Curable Ink Safety Perspective.....	101
D. Ink Odor Perspective.....	102
E. EB Inks Perspective.....	103
F. The Innovation vs. Cost Challenge.....	103
G. The Influence of Retailers on Packaging.....	105
H. The Nestlé Food/Ink Note.....	107
I. Shifting of Food/Ink Safety Responsibility?.....	112
J. Implications for Communicating with Brand Owners.....	113
VIII. ENERGY CURING PRINTING EQUIPMENT AND SUPPLIES	
MANUFACTURER PERSPECTIVES.....	116
A. Introduction.....	116
B. UV Press Manufacturer Perspectives.....	116
C. Flexography Press Manufacturer Perspectives.....	119
D. Dry Offset press Manufacturer Perspectives.....	120
E. Inkjet Press Manufacturer Perspectives.....	121
F. Screen Press Manufacturer Perspectives.....	124
G. UV Plate Manufacturer Perspectives.....	125

H. Ink Manufacturer Perspectives.....	126
I. EB and UV Curing System Manufacturer Perspectives.....	128
EB Curing Systems.....	128
UV Curing Systems.....	130
J. UV Blanket, Roller, Coater, and Other Manufacturer Perspectives.....	132
K. UV and EB Coating Hardware and Supplies Manufacturer Perspectives.....	134
L. The Bottom Line.....	136
IX. NORTH AMERICAN PRINTING EQUIPMENT AND SUPPLIES	
MANUFACTURER FORECAST.....	137
A. Introduction.....	137
B. Printing Equipment Revenue Forecast.....	140
C. UV and EB Ink Revenue Forecast.....	143
D. UV and EB Plate Revenue Forecast.....	144
E. UV and EB Curing System Revenue Forecast.....	145
F. UV and EB Coating Formulations Revenue Forecast.....	146
G. UV and EB Blanket, Roller, Coater, and Other Revenue Forecast.....	147
H. The Bottom Line.....	148
X. CONCLUSIONS AND IMPLICATIONS FOR NPES/PRIMIR MEMBERS.....	149
A. Introduction.....	149
B. Implications for Press Manufacturers.....	150
C. Implications for Ink and Coating Formulation Manufacturers.....	152
D. Implications for Curing System Manufacturers.....	153
E. Implications for Blanket, Roller, Coater, and Other Manufacturers.....	154
F. The Bottom Line.....	155
XI. RECOMMENDATIONS.....	157
XII. GLOSSARY.....	164

LIST OF EXHIBITS

Exhibit I-1: Opening the Door and Changing the Conversation.....	2
Exhibit I-2: Energy Curing Print Applications	5
Exhibit I-3: Energy Curing Printing Equipment and Supplies Manufacturer Revenues, North America, 2012 (\$M)	6
Exhibit I-4 Equipment and Supplies Manufacturer Revenues by Type of Ink Curing Type, North America, 2012	7
Exhibit I-5: The Challenge of Getting Packaging Converters to Specify Energy Curing Inks.....	11
Exhibit I-6: The Challenges Facing Printing Equipment and Supplies Manufacturers in Selling Energy Curing Ink Technology	14
Exhibit I-7: Printing Equipment and Supplies Manufacturer Revenues by Source, North America, 2012-2017 (\$M)	16
Exhibit I-8: Annual Energy Curing vs. Conventional Ink Equipment and Supplies Mfr. Annual Revenue Growth/Decline Projections, North America, 2013-2017 (\$M) 17	
Exhibit II-1: Polymeric Dispersant Used with Energy curing Inks	22
Exhibit II-2: The Complexity of Energy Curing Segmentation.....	24
Exhibit II-3: Opening the Door and Changing the Conversation	27
Exhibit II-4: Fundamental Challenges for Energy Curing Ink Technology	28
Exhibit III-1: Major Printing Equipment Using UV Curable Technology	33
Exhibit III-2: The UV Curing Process	34
Exhibit III-3: Major Printing Equipment Using EB Curable Technology.....	37
Exhibit IV-1: Energy Curing Print Applications	40
Exhibit IV-2: Coating Methods and Segmentation.....	46
Exhibit V-1: Energy Curing Printing Equipment and Supplies Manufacturer Revenues, WW, 2012 (\$M).....	49

Exhibit V-2: Energy Curing Analog Press Equipment Manufacturer Revenues by Type of Press, WW, 2012 (\$M)	52
Exhibit V-3: Offset/Flexo UV Press Manufacturers Included in Revenue Sizing, WW, 2012.....	53
Exhibit V-4: Energy Curing Ink Manufacturer Revenues by Type of Press, WW, 2012 (\$M)	55
Exhibit V-5: Offset/Flexo UV Component Cost Ratio vs. Inkjet UV Inks	56
Exhibit V-6: Offset/Flexo UV Ink Manufacturers Included in Revenue Sizing, WW, 2012	57
Exhibit V-7: Coating Technology Comparison	59
Exhibit V-8: Energy Curing Coating Formulation Manufacturer Revenues by Type of Press, WW, 2012 (\$M)	60
Exhibit V-9: Energy Curing Coating Formulation Manufacturers Included in Revenue Sizing, WW, 2012.....	60
Exhibit V-10: Energy Curing System Methods and Segmentation	62
Exhibit V-11: Energy Curing System Manufacturer Revenues, WW, 2012 (\$M).....	63
Exhibit V-12: Energy Curing System Manufacturers Included in Revenue Sizing, WW, 2012.....	64
Exhibit V-13: Energy Curing Plate Manufacturer Revenues by Type of Press (excluding non-dedicated plates), WW, 2012 (\$M)	65
Exhibit V-14: Energy Curing Plate Manufacturers Included in Revenue Sizing, WW, 2012.....	66
Exhibit V-15: Energy Curing Blanket/Roller/Coater/Other Manufacturer Revenues, WW, 2012 (\$M)	67
Exhibit V-16: Energy Curing Blanket/Roller/Coater/Other Manufacturers Included in Revenue Sizing, WW, 2012.....	67
Exhibit V-17: UV Curable Inkjet Printing Equipment Manufacturer Revenues, 2012,	

WW (\$M).....	69
Exhibit V-18: UV Curable Inkjet Printing Equipment Manufacturers Included in Revenue Sizing, WW, 2012.....	70
Exhibit VI-1: Print-to-Package: The UV Curable Benefit of Getting Faster to the Conversion Stage	71
Exhibit VI-2: Applications Best Suited for UV Curing Inks/Coatings, North America, 2013.....	73
Exhibit VI-3: Applications Best Suited for EB Curing Inks/Coatings, North America, 2013.....	75
Exhibit VI-4: Applications Best Suited for Energy Curing	76
Exhibit VI-5: Energy Curing Systems Best Suited for Specific Applications.....	77
Exhibit VI-6: Commercial Printer/Packaging Converter Perspectives on Energy Curing Inks.....	80
Exhibit VI-7: Top Benefits of UV Curing Inks, North America, 2013	81
Exhibit VI-8: Packaging Converter Perspectives on Best Fit for UV Curing Inks, North America, 2013.....	84
Exhibit VI-9: Screen Printer Perspectives on Energy Curing Inks.....	86
Exhibit VI-10: UV Coatings: Cost Savings or Value-Add, North America, 2013.....	87
Exhibit VI-11: Can Print Service Providers Afford Energy Curing Inks/Coatings, North America, 2013.....	88
Exhibit VI-12: Length of Learning Curve among UV Users, North America, 2013	89
Exhibit VI-13: How Can the Learning Curve be Shortened, North America, 2013.....	90
Exhibit VI-14: Top Three Benefits of UV Curing Inks, North America, 2013.....	91
Exhibit VI-15: Top Three Benefits of UV Curing Coatings, North America, 2013	91
Exhibit VI-16: The UV Dividend	92
Exhibit VII-1: The Brand Owners	94

Exhibit VII-2: Brand Owner Packaging Specification Dependent upon Type of Brand Owner.....	96
Exhibit VII-3: Brand Owner Disconnect Between Familiarity and Usage.....	97
Exhibit VII-4: Brand Owner: Why Not Specify UV Curable Ink and Coatings	98
Exhibit VII-5: UV Desirability is Highly Dependent upon Output Requirement, Application, and Regulation	100
Exhibit VII-6: Package Printing Decisions Entrenched by Legacy Requirements.....	105
Exhibit VII-7: The Challenge of Getting Packaging Converters to Specify Energy Curing Inks.....	106
Exhibit VII-8: Nestlé’s Perspective on the Food Packaging Value Chain	109
Exhibit VIII-1: Challenges Facing Printing Equipment and Supplies Manufacturers in Selling Energy Curing Ink Technology	117
Exhibit VIII-2: UV Plates: Opportunities for Value Creation	125
Exhibit VIII-3: UV Curing: A Technology in the Early Stages of the Development Process?.....	131
Exhibit VIII-4: Consumables—A Regional Protected Business	132
Exhibit VIII-5: Energy Cured Coatings: A Competitive Advantage Protected by High- Cost Entry	134
Exhibit VIII-6: UV Curable Inkjet Coating Print Sample	135
Exhibit IX-1: Energy Curing vs. Conventional Ink Equipment and Supplies Mfr. Revenue Forecast, North America, 2012-2017 (\$M)	137
Exhibit IX-2: Annual Energy Curing vs. Conventional Ink Equipment and Supplies Mfr. Revenue Annual Growth/Decline Projections, North America, 2013-2017 (\$M)	138
Exhibit IX-3: Printing Equipment and Supplies Manufacturer Revenues by Source, North America, 2012.....	139
Exhibit IX-4: Printing Equipment and Supplies Manufacturer Revenues by Source, North	

America, 2012-2017 (\$M)	139
Exhibit IX-5: Energy Curing Printing Equipment Manufacturer Revenues by Type of Press, North America, 2012-2017 (\$M)	141
Exhibit IX-6: Ink Manufacturer Revenues by Type of Press, North America, 2012-2017 (\$M)	144
Exhibit IX-7: Plate Manufacturer Revenues by Type of Press, North America, 2012-2017 (\$M)	145
Exhibit IX-8: Curing System Manufacturer Revenues by Type of Press, North America, 2012-2017 (\$M)	146
Exhibit IX-9: Coating Formulations Revenues by Type of Press, North America, 2012-2017 (\$M)	147
Exhibit IX-10: Blanket, Roller, Coater, and Other Manufacturer Revenues by Type of Press, North America, 2012-2017 (\$M)	148
Exhibit X-1: Stakeholders in Energy Cured Ink Technology	149
Exhibit X-2: The Paradox of Choice: Why More is Less	152
Exhibit XI-1: Staying a Step Ahead.....	157
Exhibit XI-2: Energy Curing Ink Technology: A High-Technology Business in a Mature Market	158
Exhibit XI-3: Opportunities for Energy Curing Ink Technology	160
